SUMMARY:

Passionate and driven engineering student with a strong foundation in this field . Skilled in Technical Coding problem-solving, critical thinking, and collaborating with teams to develop innovative solutions. Seeking an internship opportunity to apply theoretical knowledge in a practical setting and gain hands-on experience in the field

EDUCATION :

Sage University , Indore

Bachelor of Technology in Computer Science Engineering (June 2025 Passout)	8.24 CGPA
Sun Shine Higher Secondary School , 12th (2021)	84.2%
The Guardian High School , 10th (2019)	79.2%

EXPERIENCE :

Appzeto ,Indore

Web Developer (Intern)

- Current Working with frontend technologies HTML5, CSS3, JavaScript.
- Develop Websites with Wordpress and Plugins
- Complete task in given period of time .

Coding Raja Technologies

Java Developer (Intern)

- Building Online banking system with frontend technologies HTML5, CSS3, JavaScript.
- Building Backend with Java and MYSQL to enhance his performance.
- Complete task in given period of time .

PROJECTS:

QR Code Attendance System With DataBase

- Developed a web-based QR Code Attendance System with separate modules for admins and students, featuring secure sign-up and sign-in processes for both.
- Admins can manage student records, generate QR codes for attendance, and monitor student attendance efficiently.
- Students can scan QR codes to mark attendance, view their attendance history, and update profile details, with a robust database ensuring efficient data handling and retrieval.

Online Banking System With Database

- Developed an Online Banking System with a database-driven website, consisting of admin and customer modules for efficient account management and transactions.
- The admin module allows for comprehensive management, including customer onboarding, account management, deposits, withdrawals, balance checks, and fund transfers.
- The customer module enables users to view and manage accounts, transfer funds, check balances, and update profiles, with secure session management and accurate transaction .

PortFolio

- Developed a responsive Portfolio website featuring a dynamic landing page, About section, Services section, Projects showcase, Experience timeline, and Skills overview.
- The site includes a Contact page for inquiries and offers customization options, including day/night mode and color-changing settings for an engaging user experience.
- Ensured a seamless experience across all devices, making the website fully responsive and accessible for users.

CERTIFICATIONS :

- NPTEL Certification in Programming in Java
- BOORD Infinity Certification in Frontend for Java Full Stack Development by Coursera
- Learn Quest Certification Introduction in Java by Coursera
- Advance Java Certification By Universal Informatics
- Core Java Certification By Universal Informatics
- Udemy Certification in HTML , CSS , JAVASCRIPT
- Interview Skill Certification by TCS (ION)
- Building IOT Project with Ardino IoT Cloud Certification by Sage Winter School
- Advance Java Certification by CODECHEF
- Java Basic Certification by HackerRank

SKILLS:

Programming Language	: Java , Python
Web Development	: HTML5, CSS3, JavaScript , ReactJs
Framework	: Springboot,Hibernate
Libraries	: Numpy, Pandas, Matplotlib
Databases	: MySQL, SQL
Other	: REST API , Git & GitHub , WordPress , Tailwind

STRENGTH :

- Problem Solving And Decision Making
- Creative.
- Team Work and Leadership
- Quick Learner

HOBBIES :

- Listening Music
- Cricket
- Watching Movie
- Chess
